Questionnaire Responding to Child to Parent Violence (CPV)

Introduction

These questionnaires were used as part of the Responding to Child to Parent Violence (CPV) Project which was a Daphne European Union funded action research programme involving partners from Ireland, England, Spain, Sweden and Bulgaria. The project examined how practitioners work with Child to Parent Violence (CPV).

The questionnaires were used as part of the training evaluation process to ascertain the skills, knowledge and experience of practitioners who were wanting to or were working with CPV.

There are three parts to the questionnaires – Questionnaire 1 starting on page 6 is to be used prior to the training. Questionnaire 2 at page 17 is to be filled in at the end of the training. Within Questionnaire 2 participants are asked if they would be prepared to take part in a face-to-face interview. If participants agree to this a researcher would contact them three months after the training to undertake this interview. The Follow-up Interview Schedule/guide can be found at page 21.

Questionnaire 1

Practitioner Participants: ‘Responding to Child to Parent Violence’

What is Child to Parent Violence?

Child to Parent Violence (CPV) involves teenage and younger boys and girls who use physical, psychological or financial abuse to gain power, usually over their mothers, but also fathers. CPV is not the kind of unruly behaviour all children display but when a child persistently uses more severe and controlling behaviour to get their own way. **N.B. When using the terms mother, father or parent we also include carers in that definition.**

Questionnaire 1

This is the pre-training questionnaire. This questionnaire will take about 20 minutes to complete. Your responses are confidential and no individual will be identified in any research project output.

In this questionnaire there are a number of statements. Please indicate your response clearly. Where relevant, ensure you only tick one response. Please answer every question. There are no right or wrong answers so please answer as honestly as you can. It might be useful to bear in mind that your answers will be anonymous.

Questionnaire 2

This is the post-training questionnaire.

This questionnaire is completed at the end of the training, before participants leave the training venue. The completed questionnaires are then returned to the trainer/researcher. They will take about 10-15 minutes to complete. Your responses are confidential and no individual will be identified in any research project output.

There is a detachable slip at the end of the **post-training questionnaire** for your name and contact details- please detach this before returning your questionnaires. We will contact a number of the course participants who have completed the slip to invite them to take part in a 45 minute interview in relation to Child to Parent violence. Please indicate on the slip whether you would be open to further contact.

By providing us with these details you can help us match your responses to the first questionnaire which will assist with the research:

Please enter the first initial of surname here _____

Please enter the year of your birth _____
